Towards a Future Vision for SEL Assessment

Concurrent Session 2.1

Social and Emotional Learning

*Social and emotional learning (SEL) involves
a coordinated set of evidence-based programs and practices
to establish safe and supportive learning environments
and to foster social and emotional competencies (SECs)...
including the abilities to understand and manage emotions,
set and achieve positive goals,
feel and show caring and concern for others,
establish and maintain positive relationships,
and make responsible decisions.*

UNESCO Guidance

(as drafted)

SEL is not an outcome to be achieved

but a process in which to engage.

+

SEL assessment is not a judgment to be made

*but a process for collecting information
as the basis for decision-making
for the purpose of continuously improving SEL delivery systems.*

Assessment System Principles

Aligned

Synergistic and well integrated

Balanced

Not over-emphasizing one purpose or decision-maker

Comprehensive

Variety of approaches and purposes, across all levels

Defensible

High-quality information for justified needs

Ethical

*Inclusive, fair, transparent;
greatest consideration for least powerful*

Where to begin?

The Goal: United Nations Sustainable Development Goal 4.7

Ensure inclusive and equitable quality education that provides knowledge and skills for sustainable development, including:

- human rights
- gender equality
- promotion of a culture of peace and non-violence
- global citizenship
- an appreciation of cultural diversity and the contributions of culture.

To actualize in a national context...

Choose an SEL framework

- conceptually clear
(specific, balanced, developmentally appropriate, culturally resonate)
- ecologically-grounded in context
(connect global goals to local educational systems and strategies)
- buttressed by empirical evidence

Singh and Duraiappah, 2020

Assemble a Design Team

- build support for an SEL assessment system
- to translate the selected SEL framework into a systemic inquiry
- include perspectives of all stake-holder and rights-holder groups

what information is needed
for what purpose?

Find Your Purpose

Summative

informs a judgement as to whether a performance meets a criterion

Formative

provides actionable feedback to inform real-time adjustments

Purpose

01 Existing Protocols

- Local and imported
- Learn, assess, and adopt

02 Standardization

- Consistent, for comparison
- Customized for context

03 Pre-Fabricated Approaches

- Ready made parts, bounded
- Efficiency of prep / aggregation

04 Sampling

- Representative or stratified
- Amplified or selective

05 Periodicity

- Moment in time
- Panel or repeated cross-sectional

Highly prefabricated and focused on student/climate level
Extent to which yields high quality information is a contextual
Western frameworks and contexts; Need regional learning networks

Consider these Questions... and More!

How to overcome social desirability?

How will variations be understood?

How can information be used across purposes?

How to justify the costs of hybrid approaches?

How can assessment help mainstream SEL worldwide?
