What can you do to improve the issue?

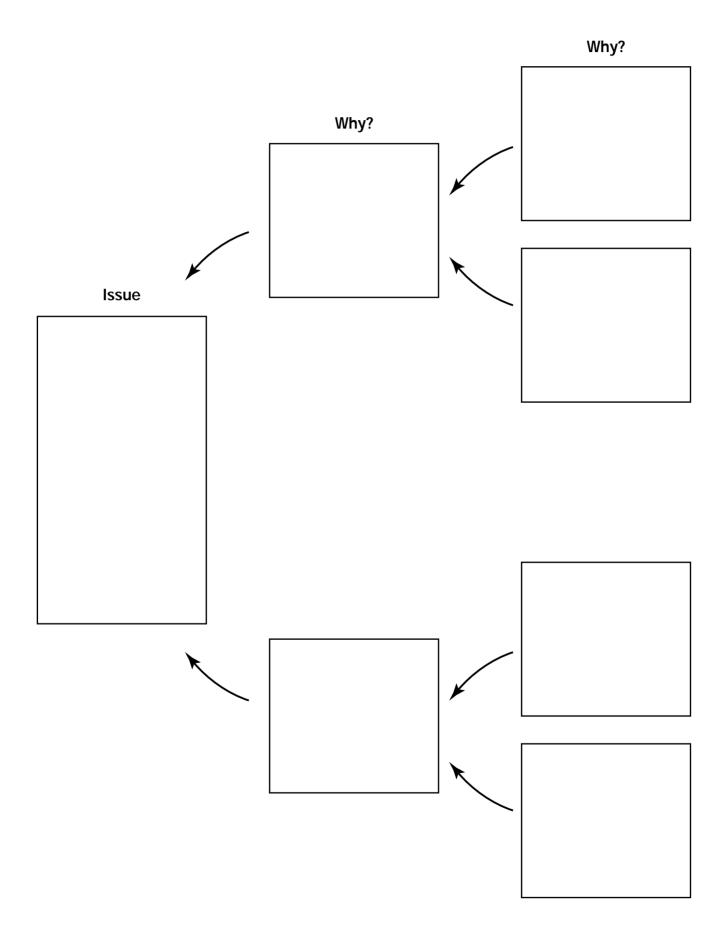

How many people are affected by the issue in the photo?

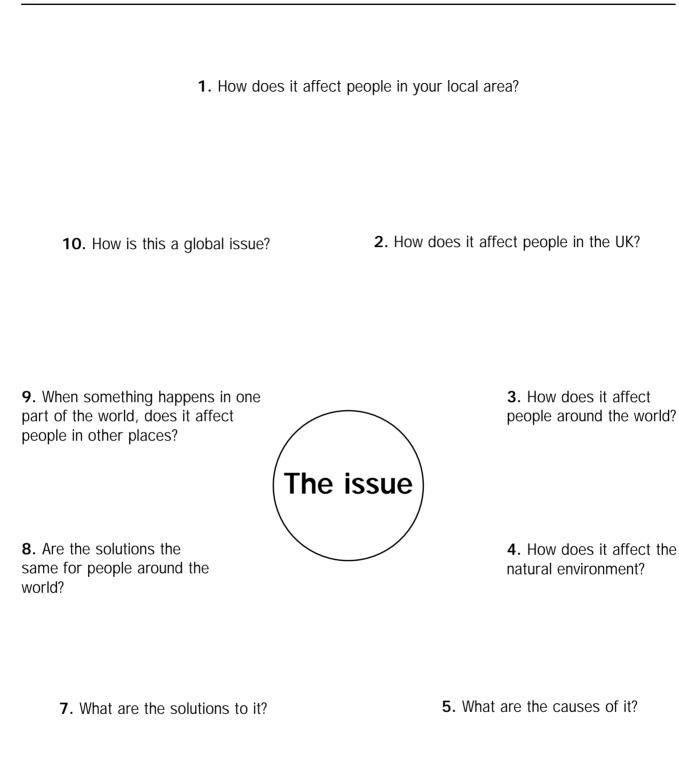

Are they affected locally, nationally or globally?

| Therefore, although some people might argue that |
| |
| |
| We think we have shown that |
| |

Does it have anything to do with **nature** or the environment?

Does it affect all of the world's environments in the same way?

Why?

How much power do you have to improve things? What could you do?

How?

Does it affect poorer and richer people in the same way?

Does it have anything to do with economics or money?

Does it have anything to do with **societies** or people? How?

Does it involve you, people in your local area, people in other countries?

Are there any similarities or differences?

| What do we need to know? | Which resources should we use? (eg books, Internet) | Who might be able to help us? | Who should do the research? |

The best action is to put our arguments to (lobby) someone in a powerful position, eg write a letter or an email, send a petition or an opinion survey, visit them.

It could be your head

It could be your head teacher, MP, someone from the council in charge of facilities for young people. The best action is to find out which organisations can help us, and join their local, national or global campaigns.

The best action is to perform a play on how the issue affects people, eg in assembly, feeder primary schools.

The best action is to invite a guest speaker into school to talk about the issue, or to be part of a debate.

The best action is to make a leaflet, poster or collage on the issue and display it to people in school and in the local community.

The best action is to make different choices about your life based on what you have learnt, eg change what you eat, wear and spend money on. Other people will notice and follow your example.

The best action is to make a video, audio or photograph presentation to provide discussion about the issue, and get people to debate it.

The best action is to raise money and donate it to a charity working on the issue.

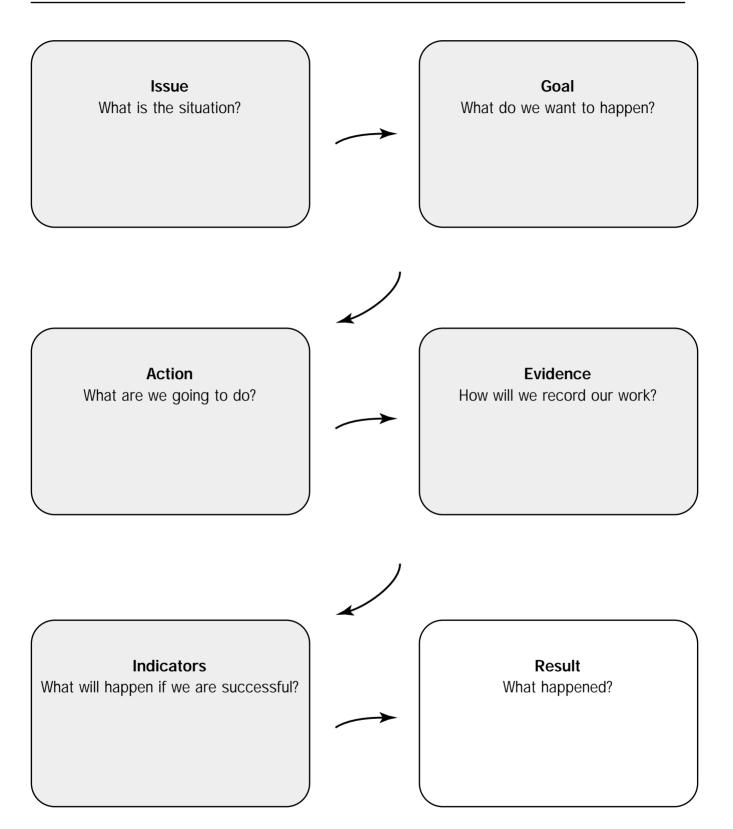

The best action is to work with the press, eg talk on local radio, invite them to an event.

| Action | How long will it take to plan? | How easy is it for us to do? | How much impact will the action have – locally and globally? | Who can help us? | Who might make it difficult for us? | Your question |

Local-global

Have you thought about issues locally and globally?

Do you think of yourself as an active global citizen?

Why?

Working together

How did we work together?

Did the group really reach a decision everybody could agree with?

Changing me

What did you enjoy most?

What skills did you learn?

Has this changed the way you will think and act in the future?

Making a difference

Have we made a difference?

How do we know?

What were the greatest successes's?

Next time

What will you do differently next time?

What were the greatest challenges?

Did anything unexpected happen?
